New Variety Flash

We are including this beautiful new variety FLASH in our Collection Offer at no extra charge. One of the most beautiful sights to see is this brilliant red variety when in full bloom. Huge florets which surpass other varieties of note. Magnificent size and color are commented on by those who have seen this variety when in bloom. This whole collection is outstanding and will thrive for years with just a very little care. FLASH, remember, will be included with the six varieties pictured below. ORDER ONE OR MORE COLLECTIONS TODAY.

WE WILL SEND YOU THE FOLLOWING VARIETIES IN EACH COLLECTION

VON LASSBURG. Often called SNOW BALL, a resemblance indeed of a huge ball of snow. Tall, stately beauty of purest white. Very large heads, making this variety most attractive and beautiful.

BLUE BOY. We can say this variety is the most blue of them all. One of the very latest of Phlox introductions; very hard to beat, being very productive in every way. Gorgeous blue color, very fine florets that are large and hold up very well, indeed.

SWEETHEART. Another of the very latest introductions of note. Richest deep salmon-pink color. Probably one of the loveliest Phlox varieties ever offered. Unusually large florets that are compact, well shaped and beautiful.

BRIGHT EYES. Here is a variety that is not only new but ranks as one of the very best red varieties we grow. Brilliant red color, massive heads of huge size florets. In size resembles the well known variety, Daily Sketch. Grand is the word for this variety.

ROYAL PURPLE. One of the richest violet colors we have ever seen in a Phlox is this grand variety. Much deeper eye, making it very attractive. Glorious when planted with white flowers in a border. Very new and most reliable.

CHAS. CURTIS. Another NEW VARIETY. Lovely shade of rich orange-red. Grows stately and very upright. This is one variety that will have a future we do believe.

MOST MODERN AND GRAND IS THIS NEW VARIETY *New* **EVERMORE**

(MINNESOTA 1166)

Giant Everbearer. This variety will produce continuously through the summer until late fall. Very easy to grow, producing a great many plants. The berries are large, long, pointed, growing on lengthy fruit stems of which there are many per plant. Color of the fruit is of the richest dark red clear through the berry; deep rich foliage, vigorous grower, making it ideal for the home garden. Delicious flavor.

For quick freezing, just wrap boxes or a case of Evermore berries in paper or cellophane. **DON'T WASH—DON'T PREPARE!** Just freeze. The most delicious Strawberry surprise you have ever tasted. The taste test tells.

ROBINSON MAJESTIC

New Scarlet Beauty

June-bearing variety. Medium late. The New Robinson (Scarlet Beauty) is the finest June-bearing variety available. Originated in the heart of the Michigan fruit producing belt, and is rapidly taking favor over other berries. The fruit is large, conical shape and glossy, taking a premium on the markets. This is definitely the most outstanding June-bearing variety for heavy production of fruit we have ever seen. Delicious for table use. A wonderful canner and preserver. A new berry you positively should have.

We consider Majestic the best of the newer June-bearing varieties for home use. Easily grown; outstanding for its large size berries, which are deep scarlet-red to the core. Fruit stems stand upright, keeping the berries clean for easy picking.

The higher sugar content of the Majestic variety makes it one of the finest for the table and canning. Extremely hardy and easily grown. Recommended for quick freezing.

**HAVE A REAL TREAT - FRESH BERRIES FROM YOUR
OWN GARDEN THAT WILL THRILL YOU**

Giant New **GEMZATA**

THREE BIG CROPS EVERY YEAR

The new Gemzata Strawberry is the most outstanding everbearer of today for both high quality and heavy production throughout the late spring, summer and fall, producing extra large berries right up to heavy freezing time. The berries are unusually large with rich red meat all the way through, firm and of fine texture.

Gemzata has proven successful on a wide range of soils and succeeds better than other everbearers we have tested under adverse conditions. University and State experimental results show it to be superior to Gem and Mastodon in both quality and production. Produces well the first season; every garden should have this fine variety.

No Traps — No Gas

PROTECTION FOR TULIPS AND PLANTS

No harm to domestic animals or birds. Force's Mole Killer Pellets are compounded from the mole's natural food.

True mole food scent attracts and will positively destroy large numbers of moles. Kill the breeding stock now before they multiply.

Once the moles make their presence evident, immediate action is necessary if the lawn and the healthy growth of plants and shrubs are to be preserved.

Halfway measures are not enough. The entire mole family must be completely eradicated.
